

ST. THOMAS SCHOOL, LONI

PLANTATION DRIVE

19/07/2022

“Trees represent life, growth, peace and nature. They are important and necessary for our existence on earth.”

A tree plantation drive was organized in our school by the departments of science and social studies on 19th July 2022 for classes III to V. The program started at 8:00 AM and each class planted one sapling in the school ground. Class 3 planted herbs whereas classes 4 and 5 planted fruit plants and vegetable plants respectively. Children got an opportunity to discuss the importance of tree plantation and all of them participated in the program with great enthusiasm.
