

## ST. THOMAS SCHOOL, LONI EARTH DAY 2022

“Preserve and cherish the pale blue dot, our earth, the only home we have ever known.”

Classes	Activities.
I & II	Earth Week Celebrations (Making of Bird Feeder, Reuse of waste plastic, Gratitude Tree, Dry and Wet Waste Briefing, Nature Walk)
III - V	Earth day inter house poster making competition. Earth day video presentation.
VI - IX	Sapling distribution. Plantation of saplings in the school campus.
X & XII	Symposium

Our school celebrated earth day through a series of activities on 22<sup>nd</sup> April. A special assembly was conducted in the school by class VI students. School also organized an Earth Day week (April 18- April 22) for classes I & II. The little stars learned more about the conservation of earth through various activities including making a bird feeder, reuse of waste plastic, gratitude tree, dry and wet waste briefing and a nature walk.

The students actively participated in the inter-house Earth Day poster-making competition for classes III – V and video presentations on Earth Day conducted on the same day.

Students of classes VI to IX made Earth Day more meaningful by planting saplings of fruit giving plants on the school campus. Indoor plants are also distributed to each class by the principal and the teacher-in-charge.

Earth Day celebrations concluded with a symposium conducted by the students of classes IX and XII. Presentations and discussions on the topics, ‘The climate change, invest in our planet, Regenerative agriculture and plastic pollution’ were the main highlights of the program. The symposium was electrified with music and dance performances related to the theme of earth day.
