

**ST. THOMAS SCHOOL, LONI**

**PUPPET SHOW**

**"IMPACT OF GADGETS"**

*Puppet show is a great and wonderful chance for children to explore pretending to be characters. They can connect with puppets automatically and can understand the concept which remains with them for a longer period of time. It helps in enhancement of language development, critical thinking and listening skills. Story telling comes alive with puppets. A puppet show was held on 06-09-2023 for classes – I, II & III. The theme of the puppet show was – “Impact of Gadgets”. Students were able to understand about how excessive use of gadgets is harmful for them. They also understood that using gadgets for a longer period of time is not only harmful for their eyes but also their minds too. The children were thrilled to see the endearing puppets with the delightful animated voices depicting a very informative performance. The audience was amazed as the splendid show unfolded on the stage with the valuable message on the “Impact of Gadgets”. and the students were encouraged with a motivational speech by Ma’am Principal. It was a wonderful and informative show to witness.*
