

ST. THOMAS SCHOOL, LONI

SPECIAL ASSEMBLY

CLASS- III

THEME: EARTH DAY

The special assembly on Earth Day conducted by classes II & III was held on 23rd April, 2024. The programme commenced with seeking Almighty's blessings through a prayer song, followed by pledge on earth day, thought of the day, news headlines, word of the day and speech about the importance of the Earth Day. The students showed the comparison between the Earth of 90's and the Earth of 20's with a short skit which gave a message, that if now also we will not start caring for our mother Earth, then what consequences we will have to face in the future. The choir presented a melodious song about what our nature gives us and how we should also thank and care for our nature in return. Further with an energetic dance performance, the students explained that we all should live in harmony with all the living beings on Earth. The students were encouraged with an appreciation and motivational message by ma'am Principal. The programme culminated by singing National Anthem. It was an enjoyable and wonderful programme to witness.
