

# REPORT ON GARDENING ACTIVITY

## CLASS-VI

**Date- 14<sup>th</sup> December,2024**

On 14<sup>th</sup> December school has organised Gardening activity as Bag-less day for the students of class VI. The activity was attended by all the students of Class VI, guided by their class teachers and supported by school gardening staff.

### Objective

Primary objective of the gardening activity was to encourage students to develop an interest in nature, learn about plant growth, and understand the importance of environmental sustainability. The activity aimed to engage students in hands-on learning, fostering teamwork, responsibility, and a sense of achievement.

### Preparation

Before starting the activity, students were briefed on the basics of gardening, including the types of plants that are suitable for the school garden, the importance of soil quality, and proper watering techniques. They were also introduced to the tools required for gardening, such as shovels, trowels, watering cans, and gardening gloves.

Students were divided into small groups, each responsible for planting a specific type of plant. Students prepared the soil and carefully plant seeds or saplings at their assigned place. After planting, students watered their plants thoroughly, ensuring the soil was moist but not waterlogged.

### Conclusion

The gardening activity was a great success. It provided a valuable hands-on learning experience for the students. It was an excellent opportunity for the students to apply theoretical knowledge in a practical setting and appreciate the role of plants in everyday life.
