Subject: English

Activity 1: Feeling Jar

Write ten adjectives for feelings and emotions on papers, put them in a jar or box. Pull out one each and mime (act out) and ask your family members to guess the adjectives.

Activity 2: Read the text and complete the table.

In many countries, bread is cooked in a mud oven. A fire heats a mud oven, not gas or electricity. When using a new oven, the first fire should be small because a big fire could crack and break the oven walls. The best fires are made with dry wood. Light the fire inside the oven and wait for about an hour until it is very hot. When the oven is at the right temperature, put out the fire. Put the bread directly onto the bottom of the oven to cook.
