Report on the Visit to National Science Centre

Date- 26th October, 2024

On October 26th 2024, students class VI, visited the National Science Centre, Delhi, as part of an educational study trip. The aim of the visit was to provide students with practical learning experiences and a deeper understanding of scientific concepts.

Highlights of the Day-

The day began with an orientation session, followed by a guided tour of the Science Center. Students explored various sections, such as the Robotics Gallery, Human Biology Hall, and the Space Exploration Pavilion. They were especially fascinated by interactive exhibits that demonstrated the principles of electricity, magnetism, and mechanics.

A 3D show on space exploration captivated the students, leaving them amazed at the wonders of the universe. Navigating through the maze, surrounded by reflections and optical illusions, was both fun and educational. It allowed students to explore the science of light and reflection in an engaging way.

Additionally, a hands-on workshop on renewable energy encouraged students to think critically and apply their knowledge to real-world challenges. The Environmental Science exhibit highlighted pressing issues like climate change and water conservation, sparking lively discussions among students. Teachers guided them in understanding complex ideas and encouraged them to think beyond the classroom.

Feedback and Reflection-

The trip ended with a group feedback session, where students enthusiastically shared their favorite moments and learnings. The effort and enthusiasm of the students were highly appreciated by the Principal Ma'am Shali Nair, who recommended the trip for its educational significance and student engagement.
