

SCIENCE CHALLENGE 2021-22

Science is inexplicably linked with our lives and helps us to understand the world around us better. Scientific and technological developments contribute to progress and help improve our standards of living. By engaging with this subject, students learn to think, solve problems and make informed decisions. As an initiative to generate curiosity, enquiry and higher order thinking amongst the learners, CBSE organised the Science Challenge for students of classes 8th to 10th. This challenge was available on DIKSHA platform from 17th January 2022 to 28th February 2022. Students from class 8th and 9th of our school successfully participated in this challenge.
